PROFILE

MSc Business Analytics candidate at UCD Smurfit with a First Class Honours degree in Computer Science and hands-on experience building data-driven applications. Comfortable across the full stack — Python, SQL, JavaScript/React and FastAPI — with a track record of turning raw data into REST APIs, dashboards and automated workflows. Built a full-stack digital-legacy application during an engineering internship at a global IT solutions provider. Founder of a 6,000+ member developer community in Chennai.

EDUCATION

MSc Business Analytics (Grade: Expected First Class Honours) September 2026 – September 2027
UCD Michael Smurfit Graduate Business School, Dublin, Ireland

- Core modules: Statistical Methods, Optimisation in Business, Programming for Analytics (Python)
- Elected Class Ambassador by a cohort of 120+ students; coordinate class communications, events and feedback to the programme team.
- Project: Smurfit Class Hub — mobile-first PWA centralising deadlines, exams, events and career updates for the cohort; React + Supabase (PostgreSQL), role-based permissions and university email sign-in; deployed on Vercel to more than 120 students.

B.E. Computer Science and Engineering (Grade: First Class, CGPA 7.94/10 (1:1 equivalent)) June 2022 – June 2026
R.M.K. Engineering College, Chennai, India

- Core modules: Data Structures and Algorithms, Database Management Systems, Operating Systems, Object-Oriented Programming, Probability and Statistics, Machine Learning, Software Engineering, Design Thinking

CAREER EXPERIENCE

Engineering Intern January 2026 – April 2026
Excelencia Consulting, Chennai, India

- Built Galaxio, a digital-legacy application that stores users' sensitive data securely and releases it to up to five trusted contacts if the user is inactive for 90 days.
- Designed and implemented the REST API (Python/FastAPI, PostgreSQL), a responsive React dashboard and automated email workflows, with encrypted server-side storage.
- Delivered the full application in two months and piloted it with 15 users; rule-based alerts dispatch in under a minute once the inactivity threshold is reached, replacing manual check-ins.

Associate Product Manager Intern September 2025 – January 2026
TIXON, Gofu Solutions Pvt. Ltd., Chennai, India

- Defined and shipped smart pricing suggestions for event organisers from PRD to release: scoped the data pipeline and model approach with engineering, wrote user stories and acceptance criteria, and measured the impact on registrations and engagement after launch; registrations rose 28%.
- Analysed registration and engagement data in Python and Excel to model pricing and attendance scenarios and prioritise the roadmap; acted as point of contact for college societies and event organisers, turning their feedback into backlog items and growing college event coverage on the platform by 40%.

KEY SKILLS

- **Programming & Data:** Python (pandas, NumPy), SQL, JavaScript; Jupyter Notebook; Microsoft Excel (advanced — pivot tables, lookups, scenario modelling)
- **Databases:** PostgreSQL, MongoDB, SQLite, NoSQL
- **Web Development:** React, FastAPI, REST API Design, HTML, CSS
- **Tools:** Git/GitHub, Figma; AI-assisted development (Claude, ChatGPT, Gemini, Cursor)
- **Languages:** Tamil (Native), English (Fluent), Hindi (Intermediate)

OTHER INFORMATION

- **Founder** — Code on JVM Chennai (Java & Kotlin developer community, Oct 2024 – present): founded and lead a community that has grown to 6,000+ developers; directed more than 25 in-person meetups, hackathons and workshops, managing speakers, sponsors, venues and a volunteer team.
- **Organiser** — TechXConf 2024 and 2025, Asia's largest AI and cloud conference.
- **Organiser** — Google Developer Groups Chennai: core volunteer for DevFest Chennai 2024 and 2025, Google's flagship developer conference, supporting speaker coordination and attendee experience for 2,000+ participants.
- **Speaking & volunteering:** contest winner and speaker at React Nexus 2026; invited guest lecturer on DSA at St Joseph's Engineering College; volunteer at PyCon India 2025, Chennai React and other Chennai tech communities.
- **Interests:** Formula 1 (race strategy and telemetry analysis), cricket, building side projects for friends and classmates.
